The screenshot shows the main screen of the WRS App System Up-keeping application. The interface is divided into several sections:

- Navigation Menu (Left):** Includes 'Account Login', 'Pages', and 'Menu'.
- Database Backup and Restore (Top):** Contains 'Database Backup', 'Database restore', 'Miscellaneous setup', and 'About WRS'.
- Chart of Accounts (Middle):** A table listing various accounts with columns: Account No., Account Name, Account type, Account Name, Label, Designation, and Account Sub-type.
- Supplier's List (Bottom):** A table listing suppliers with columns: Company Name, Contact Title, Address, City, Region, Province, Postal Code, Country, Phone, and Fax.
- Suppliers List (Bottom Left):** A section for managing suppliers.
- Issued To List (Bottom Right):** A section for managing issued items.

Annotations with arrows point to the following sections:

- Database backup
- Database restore
- Miscellaneous setup
- About WRS
- Chart of Accounts
- Suppliers List
- Issued To List

The System has 2 options to make a data backup

1. Overwrite Previous Backup
2. Backup to New Folder
