

Product List

This is the masterlist of all products. Any new products are defined in this list.

A product is defined by the following:

1. **Product ID** - this is a unique ID number with numeric data type.
2. **Description** - it describes in specific terms what the product is.
3. **Unit of Measure** (UOM) - choices example: PCS, KGS, SET, TON, ML, L, etc. Must be in uppercase.
